I-TECH HD SERIES				
		BSS Omnidrive HD™ DSP processing with FIR filters. Level Max™ peak voltage and RMS power limiters communicate with each other, resulting in smooth and accurate response, better sound. 5th-generation patented Class-I (BCA®) circuitry couples power efficiently to the load and provides low AC current draw. Front-panel USB connector transfers presets to/from a USB drive to the amp's DSP. Analogue, AES/EBU, CobraNet, HiQnet and Ethernet connectivity. Global Power Supply. SLM (Sweep Load Monitoring) with system-level diagnostics.		
	CRO0025	IT-12000HD Stereo Power: 3750W @ 2 Ohms / 4500W @ 4 Ohms / 2100W @ 8 Ohms Mono Power: 9000W @ 8 Ohms	€8,214.00	€10,103.22

MACRO TECH I SERIES				
		Macro-Tech I Series continues the Macro-Tech legacy, putting sound quality first. Class-I circuitry gets more power with less waste. Rugged construction ensures that Macro-Tech I are built to withstand years of shows. Global power supply, designed to deliver power no matter what country you tour in. Built-in load, line voltage, input and output monitoring. Standard Ethernet networking via System Architect® lets you monitor and control the amp from any location.

COMTECH DRIVECORE SERIES				
		<p>Crown ComTech DriveCore series amplifiers are 1U, convection cooled, ultra-energy efficient amplifiers. Offering up to eight channels and 125 watts per channel the ComTech DriveCore amplifiers are the ultimate for solution for a range of fixed installation environments, from video conferencing in boardrooms to luxury suites in stadiums. The integrated DriveCore technology chip offers greater than 90 percent efficiency with no compromise in performance and boasts a signal-to-noise ratio of 110dB. DriveCore also has patented feedback and protection circuits integrated into the silicon for fast and accurate response. The amplifiers feature flexible input routing and universal power supply and each model weighs only 10lbs.</p>
